INDORE, M.P - 452010, INDIA

OBJECTIVE

MBA Business Analytics candidate with hands-on experience in Advanced Excel, Power BI, Tableau, SQL, Python, data analysis, dashboard development, KPI reporting, MIS reporting, and data visualization. Skilled in analyzing business data, developing interactive dashboards, and generating actionable insights through academic projects. Seeking a Business Analyst role to support data-driven decision-making, process improvement, business reporting, and organizational growth.

PROJECTS

1. Retail Sales Analysis Dashboard | Excel, SQL, Power BI

April 2026

- **Analyzed 12,000+ retail sales transactions** across 4 regions and 5 product categories to identify revenue, profitability, and sales performance trends.
- Built an interactive Power BI dashboard with **10+ KPIs**, including Total Sales, Profit Margin, Average Order Value (AOV), Monthly Sales Growth, and Regional Performance.
- Identified that the Technology category contributed ~42% of total revenue, while discounts above 25% significantly reduced profitability.
- Enabled data-driven **inventory planning, pricing optimization, and regional performance monitoring** through real-time business insights.

2. Customer Segmentation Using Python & SQL | Python, SQL, Scikit-learn

July 2026

- **Analyzed 50,000+ purchase transactions** from 5,000 customers to understand purchasing behavior and customer value.
- Engineered **RFM (Recency, Frequency, Monetary) metrics** and **applied K-Means clustering** to segment customers into 4 behavioral groups.
- Identified that 18% of customers generated nearly 48% of total revenue, while 17% were at high risk of churn.
- Provided actionable insights for personalized **marketing campaigns, customer retention strategies, and improved marketing ROI**.

SKILLS

- **Tools** : Python, Advance Excel, PowerBI, Postgre SQL, Power Query, DAX, VS code, Jupyter Notebook, MS Office.
- **SQL** : Data Extraction, Joins (Inner, Left, Right), GROUP BY, HAVING, Aggregate Functions.
- **Python** : Pandas, NumPy, Data Cleaning, Data Visualization, Customer Segmentation, RFM Analysis, EDA.
- **Excel** : Pivot Tables, LOOKUP Function, INDEX-MATCH, IF Statements, Conditional Formatting.
- **Soft Skills** : Attention to detail, Teamwork and Collaboration , Adaptive Learning
